# Australian Phonemic (Broad) Keyboard

Type these symbols by pressing the SHIFT key on your keyboard as if typing an uppercase letter.

White letter keys contain an Australian or IPA symbol which is NOT similar to the key on your physical keyboard.
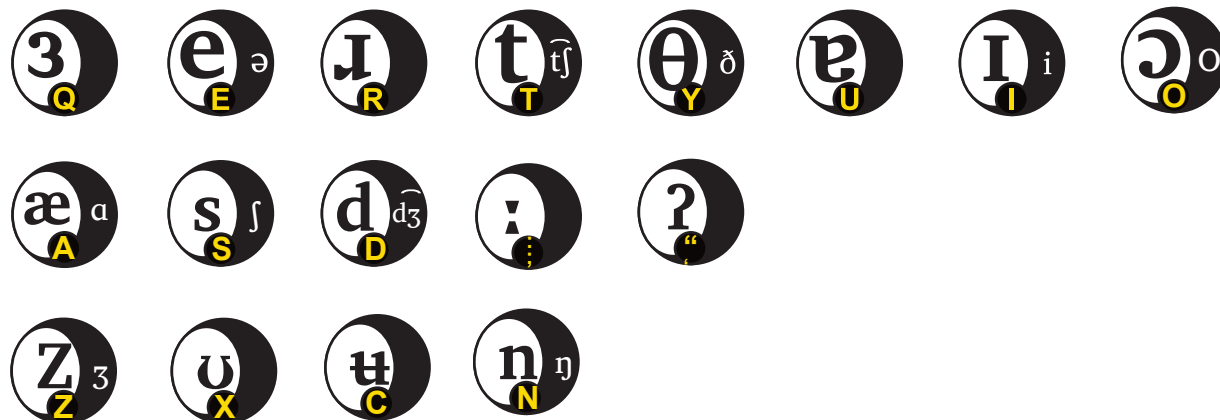

Grey letter keys contain an Australian or IPA symbol which is IS similar to the key on your physical keyboard. You might choose NOT to cut these out and Blu Tack them to the physical keyboard.
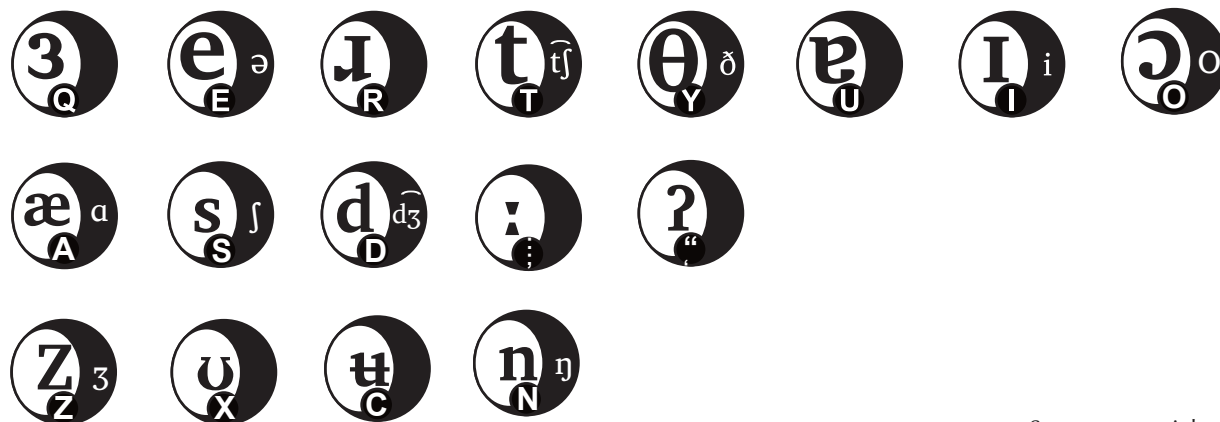

To type the syllabic consonant marker below /l/,/m/,/n/ or /ɹ/... you will need to first type the BACKTICK key (to the left of the number 1 key), then l,m,n or ɹ.

Bold bottom left letters match those on your physical keyboard. Now you know where to Blu Tack each letter on this sheet which you cut out!

Mini Labels

Some users might prefer these mini-labels if they have a compact keyboard.
